

A LEVEL PATHWAY TO UNIVERSITY

We are a specialist A Level college, most of our students are aged 16-19 and are preparing for university by studying A Levels, the advanced level qualification that forms the traditional route to university in the UK.

Students at Notre Dame choose 3 A Levels from a range of subjects.

Subjects are chosen to reflect the student's abilities and strengths and are combined in such a way to enhance and support their future study plan. Each student is different and your subject choices will reflect that so we will always advise you personally. Individual interviews will make it easier for you to choose the right course from the outset and then during your time in college, we will work with you to research, plan and carry out the next step in your education.

In addition, to A Level lessons, all students attend 1h per week of Philosophy, Theology and Ethics (PTE) which gives them the opportunity for healthy debate and a chance to stop and reflect on some of the big issues in our world today in a safe and unpressured environment.

Students will also be expected to participate in our Stella Maris Leadership Award.

Please follow the link to find out more <https://www.notredamecoll.ac.uk/stella-maris-and-pte>

Length of course 2 years	Length of course 2 years
Start-end dates	Start-end dates September -July

The advantages of the A Level Pathway to University at Notre Dame

- Time to develop as a student and reach full potential. We work with you to research, and plan and so that you make a wise and deliberate choice for university.
- Allows familiarisation and adjustment to the British educational system
- Improved language skills that are key to the highest grades and greatest success.
- A Level's are internationally recognised qualifications which means that students also qualify to apply to universities in other countries if they wish
