

## A LEVEL PATHWAY TO UNIVERSITY

We are a specialist A Level college, most of our students are aged 16-19 and are preparing for university by studying A Levels, the advanced level qualification that forms the traditional route to university in the UK.

Students at Notre Dame choose 3 to 4 A Levels from a range of subjects. Subjects are chosen to reflect the student's abilities and strengths and are combined in such a way to enhance and support their future study plan

Each student is different and your subject choices will reflect that so we will always advise you personally. Individual interviews will make it easier for you to choose the right course from the outset and then during your time in college, we will work with you to research, plan and carry out the next step in your education.

Length of course	2 years
Start-end dates	September -July
Visa	Tier 4 General visa valid for 2 years

The advantages of the A Level Pathway to University at Notre Dame

- Time to develop as a student and reach full potential. We work with you to research, and plan and so that you make a wise and deliberate choice for university.
- Allows familiarisation and adjustment to the British educational system
- Improved language skills that are key to the highest grades and greatest success.
- A Level's are internationally recognised qualifications which means that students also qualify to apply to universities in other countries if they wish
