

### (3) Staying with a relative, family friend or guardian

Some of you may not require homestay or halls of residence because you are in the fortunate position of being able to stay with a relative, a family friend or a guardian who already lives in the Leeds area. We need to know exactly who you are living with and what their relationship is to you. We must have written permission from your parents confirming the arrangement and instructions e.g. Are they are to act as your guardian in the absence of your parent? The Parental consent form IS1 includes a section about who you are living with in the UK.
