The use of the latest technology is actively encouraged at Notre Dame Catholic Sixth Form College. With this comes a responsibility to protect students, staff and the College from abuse of its systems.

All students, therefore, **must** adhere to the policy set out below. This policy covers all computers, laptops and electronic devices within the College Network, irrespective of who owns the device. Failure to comply with the terms of this Policy may be dealt with as a Disciplinary matter under the Student Code of Conduct.

Students are expected to behave responsibly on the College computer network and with the IT equipment, as they would in classrooms and in other areas of the College.

The following points should be noted:

- Personal use should be limited, for example, you must not use the Internet to conduct transactions on-line, however you can use it to research topics of personal interest.
- You must not use College computers or services for outside business interests; however it would be acceptable to prepare letters, use a spreadsheet or prepare other documents for personal use.
- Whilst the College recognises that you will not always be able to stop a personal e-mail from being received, external personal e-mail should not be encouraged, for example, by giving out your College email address to personal contacts or signing up for e-mail alerts. Personal external e-mails should only be sent occasionally and out of core hours. *See Section 7 below.*
- Personal usage should be within the bounds of the law and decency. You should ensure appropriate courtesy and respect to others. You should not, for example, use your College e-mail address to express your personal views on issues which may be seen to be related to the College since such use could extend liability for those views to the College as a whole. Disparaging remarks about others should not be made.
- For the avoidance of doubt, no sexually explicit or racist material, indecent images or any material likely to cause offence or embarrassment to others should be created, downloaded or accessed.
- You should only visit chat rooms directly related to work purposes, *see Section 4 below on inappropriate Behaviour.*
